

ABOUT SNEHA

SNEHA (Society for Nutrition, Education and Health Action) is a Mumbai-based non-profit organization dedicated to improving the health, nutrition, and safety of women and children living in vulnerable urban informal settlements. Our mission is to empower urban women and children through integrated health and nutrition programs, education, and advocacy.

We work through a dual approach—engaging both care seekers and care providers. At the community level, we empower women and families to become agents of change, while simultaneously collaborating with public health and safety systems to drive sustainable improvements in urban health outcomes.

SNEHA's key programs include:

Maternal and Child Health
Empowerment, Health and Sexuality of Adolescent
Prevention of Violence against Women and Children
Public System Partnership
SNEHA Shakti
Palliative Care
Livelihood Generation

Between 2016 and 2025, SNEHA directly reached over 620,555 women, children, and healthcare workers, and indirectly impacted a population of over 3.63 million across seven municipal corporations and three municipal councils in the Mumbai Metropolitan Region (MMR).

Today, SNEHA is a 500+ member organization with deep grassroots presence and a strong track record of reducing maternal and neonatal mortality, child malnutrition, adolescent anemia, and gender-based violence—key determinants of health equity for families and communities.

ABOUT THE PROGRAM

This project seeks to provide palliative care to all people, irrespective of caste, creed, religion and economic status, to allow them to live their life with minimum pain, with dignity and comfort, to the very end. It seeks to provide prevention of and relief from suffering to patients with life-limiting illness or experiencing intense pain through provision of medical support, counseling and other services.
