

## **ABOUT SNEHA**

SNEHA (Society for Nutrition, Education and Health Action) is a Mumbai-based non-profit organization dedicated to improving the health, nutrition, and safety of women and children living in vulnerable urban informal settlements. Our mission is to empower urban women and children through integrated health and nutrition programs, education, and advocacy.

We work through a dual approach—engaging both care seekers and care providers. At the community level, we empower women and families to become agents of change, while simultaneously collaborating with public health and safety systems to drive sustainable improvements in urban health outcomes.

SNEHA's key programs include:

Maternal and Child Health  
Empowerment, Health and Sexuality of Adolescent  
Prevention of Violence against Women and Children  
Public System Partnership  
Palliative Care

Between 2016 and 2025, SNEHA directly reached over 620,555 women, children, and healthcare workers, and indirectly impacted a population of over 3.63 million across seven municipal corporations and three municipal councils in the Mumbai Metropolitan Region (MMR).

Today, SNEHA is a 500+ member organization with deep grassroots presence and a strong track record of reducing maternal and neonatal mortality, child malnutrition, adolescent anemia, and gender-based violence—key determinants of health equity for families and communities.

## **ABOUT THE PROGRAM**

'Romila Palliative Care' - supports patients with life-limiting illnesses, primarily those with cancer. 'Romila' means 'heartfelt' and symbolizes the loving, compassionate and competent care that this Project hopes to provide patients to enable them to live a life of dignity and hope through their illness. It will also support their family and care-givers to help them look after the patient better, with greater assurance and confidence.

## “WHAT’S IN IT FOR ME” (WIIFM) - AT SNEHA
